Community Services and Programs

Drug dealers are targeting our students at younger and younger ages. Intervention, prevention and education concerning the effects of drug and alcohol use is essential in protecting our children and our community.

Schools and Churches are healing places for a hurting world. Help equip your students, teachers and church members with current information and strategies that will help them help others, whether they are family members, friends, or members of the community.

Students at Watts School get hands on in Drug Prevention Education.
